# Correction: Immunosenescence: a key player in cancer development

Jingyao Lian<sup>1,2†</sup>, Ying Yue<sup>1,2,3†</sup>, Weina Yu<sup>1,2†</sup> and Yi Zhang<sup>1,2\*</sup>

### Correction: Journal of Hematology & Oncology (2020) 13:151

https://doi.org/10.1186/s13045-020-00986-z

In the ahead-mentioned sentence in the original article, 'KLRG1' was incorrectly written as 'NKG2C', leading to an inaccurate statement.

The authors regret this oversight and wish to clarify that the corrected sentence should instead read:

"It should be noted that, in the process of immunosenescence, the activating receptor expression of natural killer (NK) cell markers NKP30, NKP46, etc., is reduced, while the inhibitory receptor expression of KIR, KLRG1, etc., is increased".
